DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 2-4, drawn to cast-cutter with a specific cutting member configuration.

Group II, claims 5-12 and 15-20, drawn to a cast-cutter with a specific cutting blade assembly configuration.

Group III, claims 13-14, drawn to a cast-cutter with a specific cutting assembly attachment configuration.

Group IV, claims 21-28, drawn to a cast-cutter with a specific blade drive configuration.

Group V, claims 27-30, drawn to a cast-cutter with control circuitry.

Group VI, claims 27, 28, 31-33, drawn to a cast-cutter with a braking means.

Group VII, claim 34, drawn to a cast-cutter with visual signal means.

Group VIII, claims 35-38, 41, drawn to a cast-cutter with a specific switch configuration.

Group IX, claim 39, drawn to a cast-cutter with a safety guard.

2. Claim 1 links inventions I-IX. The restriction requirement of the linked inventions is **subject to** the nonallowance of the linking claim(s), claim 1. Upon the indication of allowability of the linking claim(s), the restriction requirement as to the linked inventions

Art Unit: 3724

shall be withdrawn and any claim(s) depending from or otherwise requiring all the limitations of the allowable linking claim(s) will be rejoined and fully examined for patentability in accordance with 37 CFR 1.104 **Claims that require all the limitations of an allowable linking claim** will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. Amendments submitted after final rejection are governed by 37 CFR 1.116; amendments submitted after allowance are governed by 37 CFR 1.312.

3. Claim 40 will be examined with the elected Group.

4. Applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, the allowable linking claim, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

5. The inventions are distinct, each from the other because of the following reasons:

6. The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I requires the special technical feature of a specific cutting member configuration that is not required for Groups II-IX.

Group II requires the special technical feature of a specific cutting blade assembly configuration that is not required for Groups I and III-IX.

Group III requires the special technical feature of a specific cutting assembly attachment configuration that is not required for Groups I, II and IV-IX.

Group IV requires the special technical feature of a specific blade drive configuration that is not required for Groups I-III and V-IX.

Group V requires the special technical feature of a control circuitry that is not required for Groups I-IV and VI-IX.

Group VI requires the special technical feature of a braking means that is not required for Groups I-V and VII-IX.

Group VII requires the special technical feature of a visual signal means that is not required for Groups I-VI, VIII and IX.

Group VIII requires the special technical feature of a specific switch configuration that is not required for Groups I-VII and IX.

Group IX requires the special technical feature of a safety guard that is not required for Groups I-VIII.

Species Election

7. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Regarding Group II:

Species IIA - Figure 3;
Species IIB - Figure 8-9;
Species IIC - Figure 10-11;
Species IID - Figure 12-13;
Species IIE - Figure 14-15;
Species IIF - Figure 16-17;
Species IIG - Figure 18-20;
Species IIH - Figure 21-22;
Species IIJ - Figure 23-25;
Species IIK - Figure 26;
Species IIL - Figure 40-42;
Species IIM - Figures 43-45.

Regarding Group IV:

Species IVA- Figure 27;
Species IVB- Figure 28;
Species IVC- Figures 29-30;
Species IVD- Figure 31-32.

Upon election of one of Groups II or IV, applicant is required, in reply to this action, to elect a single corresponding species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

8. The claims are deemed to correspond to the species listed above in the following manner:

Regarding Group II (claims 5-12, 15-20):

Species IIA - Figure 3:	claims 5-12, 15-17, 20;
Species IIB - Figure 8-9:	claims 5-12, 15-17, 20;
Species IIC - Figure 10-11:	claims 5-12, 15-17, 20;
Species IID - Figure 12-13:	claims 5-12, 15, 16, 18, 20;
Species IIE - Figure 14-15:	claims 5-12, 15, 20;
Species IIF - Figure 16-17:	claims 5-10, 15, 20;
Species IIG - Figure 18-20:	claims 5-8, 10-12, 15-17, 20;
Species IIH - Figure 21-22:	claims 5-12, 15-17, 20;
Species IIJ - Figure 23-25:	claims 5-12, 15-17, 20;
Species IIK - Figure 26:	claims 5-12, 15, 20;
Species IIL - Figure 40-42:	claims 5, 9, 15, 20;
Species IIM - Figures 43-45:	claims 5, 9, 15, 20.

Regarding Group IV (claims 21-28):

Species IVA- Figure 27:	claims 21, 2, 24, 27-28;
Species IVB- Figure 28:	claims 21, 2, 24, 27-28;
Species IVC- Figures 29-30:	claims 21, 2, 24, 27-28;
Species IVD- Figure 31-32:	claims 21, 2, 24, 27-28.

The following claim(s) are generic: At least claims 1 and 40 as well as claims not listed in every corresponding species above.

9. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

Each species is directed to a corresponding figure or figures as described above, and each figure differs in configuration from the other listed figures as described in the corresponding detailed description of the present specification.

10. Because this Lack of Unity requirement is considered to be complex, a telephone call was not made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

11. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
